The Neo-Marxist media is censoring positive information about the Sons of Confederate Veterans and the truth about the War for Southern Independence. We plan to overcome this leftist monopoly on public information by contacting **local** conservative media and not-so-well-known **digital** media, and we need you to supply us with their information, as follows:

1. Name of individual who is a local conservative media personality, such as talk show host, podcast host, or newspaper columnist—an individual who tends to be at least fair and balanced and willing to give “the other side of the story” a fair hearing.
2. Name of friendly newspaper, radio station and/or radio program, TV, and podcast.
3. Physical address of newspaper, radio station, TV station, or podcast.
4. Phone number for newspaper, radio station TV station, or podcast.
5. E-mail address of Southern friendly or fair media (the individual radio, podcast or newspaper who seems to be friendly or fair).
6. Website of conservative/friendly media outlet.

This effort can be a successful out-flanking maneuver of the neo-Marxists who have a virtual strangle hold on public information. Using your information, the SCV can reach millions of people who need to hear “the rest of the story” **and it will cost us nothing except a little effort on our part!** As General Forrest would say, “Hit them where they ain’t!”
